“ Susan, words can not express the sadness I feel with Marks passing. I worked with him for close to 20 years. I never heard an angry word from him or a criticism of a fellow worker. He was kind, caring, and most of all funny. He had such great humor. Mark had a talent for cartoon drawing. He made several humorous cartoons of coworkers that really made us laugh. I will hold mark very dear to my heart. He was such a special man. My prayers are with you ❤️

“ Mark was very special to me. Not only was he a mechanic a pilot could trust, he and I shared interests in aircraft and history that were dear to my heart. His collection of military memorabilia includes some of the items I used in my fighter/interceptor days with the Washington Air National Guard. He was a fine young man, and it saddens me greatly to learn of his passing. Most sincerely, Don Thompson
