

## Janet Alice Hunter

March 29, 1945 - April 28, 2018

Hunter, Janet A. (1945 - 2018)

Janet grew up on a family farm in Peck, ID, where she developed a life long love of horses and country living. She completed X-Ray Technician Training right after high school, and stayed in that profession until retirement. She began her career in San Francisco, CA. where she met and married her first husband, Anthony Lewis. They had two daughters, Crista L. Lambert and Brenda J. Gilbert. Janet and Anthony moved to Spokane, and also to the Medical Lake area, but later divorced. Janet was an extremely smart, strong, independent, and selfless lady. She spent her entire life giving everything she had to her family, before ever thinking of herself. She was an excellent role model for all of her children and grandchildren. Janet is survived by her daughter Crista L. Lambert, and Brenda J. Gilbert, as well as three grandchildren, Anthony J. Lambert, Granite C. Gilbert, and Skyliya S. Gilbert. She was loved by everyone who knew her, and will be greatly missed. Cheney Funeral Chapel in charge of arrangements. Online guestbook at [cheneyfuneral.com](http://cheneyfuneral.com)

“ My deepest sympathy to Jan's family - you are all in my thoughts and prayers. I was blessed to know and work with Jan for many years until she retired from Inland Imaging. She taught me a lot in the years we worked together. I loved her smile and laugh. We had many good times together especially during our time together at the north office.. I'm sorry to say that we had lost touch for a while, but am glad that we reconnected last fall. I will miss her.
