“ Rest in peace old friend. During high school, we were running buddies; cars, motor bikes and your Harley. Your Dad always had room in his shop for our latest breakdown. I'll never forget the time you and I were on the Harley leaving town going South. This women didn't see us and hit the bike from behind. We were going down the road under her bumper with sparks flying. Your crash bar is all that saved us. Many adventures! I miss you, my brother.

“ John, you were like my second father and one of the greatest influences in my life with your great words of advice and years of wisdom to back them. My dad and I would come to the shop during mowing season and off just to stop and visit usually you guys would be telling stories about your dad and mine welding implements for my dad's farm and then leading up to stories about tiny sunderland and tuna fish sandwiches.... your scriptures and good words of the lord and friendship will forever forge my life and I will always be grateful for having such a phenomenal friend in you ❤️! I'm sure you and dad are already laughing with those same silly stories and I will see you both someday soon....say hi to my dad and tell him I love him very much and miss him even more please. -Theresa

“ So sad to hear of John's passing. Take care my friend and maybe they need a good welder and metal worker. If so you are the Man. Never forget you and your Dad as I visited numerous times to the shop downtown with my Dad and Grandfather to have Harry fix something. All the best to family members and will keep John in my prayers and thoughts.
