“ Howard was always there for a kind word and encouragement for me, I have such a hard time of communication with others. He was patient with me ,
. It diid not matter if it was at church or outside of church, he airways had time for me.

I will always remember Howard for how he walked in the light of Jesus, and because he did not turn away from one of the least of Jesus's people, he was accepted into heaven with I'd waiting to show him his new room.

I hope to be just like Howard a person who walks the talk. Howard you will be missed by me. God bless all who were left behind. patty thank you for sharing your husband with me, know he is with his family and friends and we will,all be United in Jesus name amen.
