“ Laurie was a very significant and pivotal person for me in my transition to life as a recreation assistant at Lakeland Village in 1970-73. I was a young single mother, first job and no experience with the special population we were tasked to help. The world was turning, with the Vietnam War and political turmoil. Laurie was always kind and calming to me. She was a significant mentor. She knew the challenges of being a working mom, with her young boys. She always approached her position at work with calm and kindness for the population of residents we worked with and had extra to give to me and others in her social sphere. I would not be the person I became with out her mentoring. The rest of my working life I was committed to teaching in the special populations of our world.
My condolences to Doug, Brian and Brad.

“ I am so so sorry to hear of Laurie's passing. She was a wonderful person and nurse. I had the pleasure to work with her at Rockwood Clinic when she was there.
Brian and Brad, I am so sorry for the loss of your mom! She will always be with you, cherish the memories you had with her- those will keep her alive in your hearts. My sincere condolences to you both and all your family.
